INDIANA MASONIC HOME

A Community Where You Belong

Laying The Foundation For The Next 100 Years

Our First 100 Years

The Indiana Masonic Home was established to care for widows and orphaned children of Masons in 1915.

Through the years, the community grew and demand changed.

- There was a shift from care of children to care of seniors
- Many of the original “home kids” have returned and are living in the community during their retirement years

Our Next 100 Years

In 2015 the campus was renamed Compass Park.

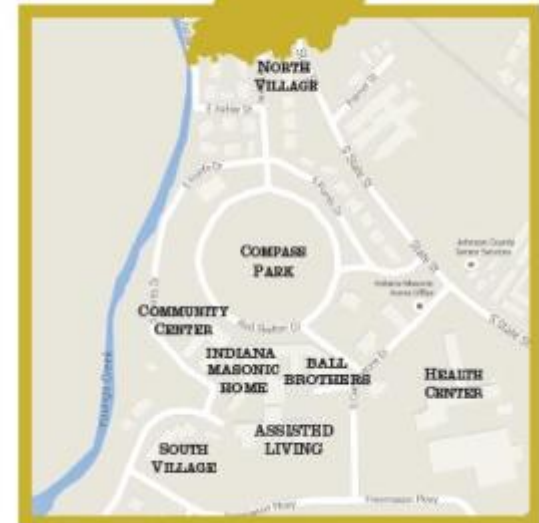

- While we honor our past, we want to make it clear that our community is far more than the historic Indiana Masonic Home building
- This name was chosen to honor the traditional Freemason's symbol of the Compass, as we highlight the beautiful, parklike grounds of our community
- Today, Compass Park serves as the senior living community of choice for Indiana Freemasons and their families
- We are proud of our community and would like to take this chance to show you around
